## Product line: Cube Liners

- Ideal product for advanced applications (thick and viscous products)
- Reduced residual product left in the liner - form-fit design and rounded corners
- Hands-free filling through bottom or top valve
- Improved construction - only 3 welds improving strength of the liner

## System Applications

- **Cosmetic industry:** cream, lotion, liquids
- **Food industry:** milk, cream, chocolate, oil, liquid egg, wine, water
- **Fruit and vegetable processing:** fruit concentrates, juices, fruit pulp, pickles (gherkins)
- **Chemical industry:** water based glues, paints

## Films

- Available in clear and blue
- The high quality metallocene film we use is the result of 25 years of industry experience and guarantees outstanding performance

## Range of IBC containers

plastic containers

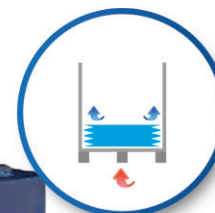

octabins

metal containers

Big Bag Containers (BBC)

## Filling Methods

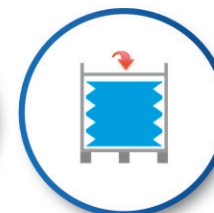

- Simple and flexible filling process

Filling through the bottom valve

Filling through the top valve

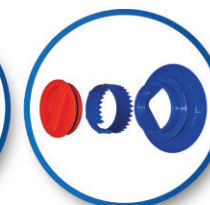

Filling with an unfolded liner  
Ideal alternative for Schutz/Mauser

## Wide range of Fitments

- Every valve is leak tested at Peak

Filling: 1", 2", 3"

Discharging:  
2" and 3" cutter-membrane system

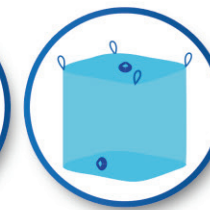

Discharging:  
valves: 2", 3"

## Special Features

- Additional fitments (air vent., sampling)

trunks

tie tapes

cuffs and tapes
